

Game's Rules

Goal

Reach the flower with Beebi (the bee). To do so, move the blocks to solve the level.

Blocks

Those blocks are movable, you can use them with Operators to interact with the environment. There are several type of blocks :

Beebi :

This block controls the bee.

Wall :

This block interact with the walls.

Fire :

This block interact with the fire.

Water :

This block interact with the water.

Operators :

The operators are used with the Blocks. They aren't movable so the Blocks move to the Operators. There are three of them :

Operator + :

This operator sums two blocks properties.

Operator - :

This operator subtracts a property to another.

Operator = :

This operator affects the property of the first Block to the second.
